

You have the material and we have the adequate stirrer. No matter if painter, plasterer or bricklayer - EIBENSTOCK has the right unit, from the handy small stirrer to the mixing station Automix with 1,800 W power. Convince yourself of the robust assembly, the easy handling and the reliability and long lifetime of our stirrers.

AHR 24.1

Stirring without cable up to 25 l

The handy cordless Stirrer is the ideal tool for every painter. Independent from a mains supply at a construction site or outside you can easily mix glue, filler, paint etc.

- ❑ Low weight - easy transport
- ❑ Large handles - non-tiring work
- ❑ Planetary gearing - high torque
- ❑ Metal gearbox housing - long lifetime
- ❑ Working time (each battery pack) depending on quantity about 30 min

Specifications	AHR 24.1
Rated speed	0 - 550 rpm
No-load speed	0 - 550 rpm
Battery pack capacity	24 V x 1.9 Ah
Max. basket diameter	100 mm
Spindle connection	M 10 female
Weight incl. battery pack	2.9 kg
Order no.	07912
Supply	2 battery packs 24 V x 1.9 Ah
	quick charger, stirring rod (RGA 100/M 10)
Stirring rod RGA 100/M 10	31923
Stirring rod WGA 100/M 10	31924
Stirring rod SGA 100/M 10	31925
Spare battery	31903

EHR 14.1 S Set

The leightweight Stirrer up to 30 kg

is particularly suitable for tilers and painters for mixing paint , glue, tile cement etc.

- ❑ Large handle
- ❑ T-wise handling - easy mixing
- ❑ Electronic switch - stepless speed control for less splashes
- ❑ Aluminium gearbox housing - long lifetime
- ❑ M 14 female direct stirrer connection - effective power transmission
- ❑ Lock-on button - with protection against unintentional locking

Specifications

EHR 14.1 S

Power input	960 W
Rated voltage	~ 230 V
Max. basket diameter	120 mm
Rated speed	0 - 390 rpm
No-load speed	500 rpm
Spindle connection	M 14 female
Weight	2.95 kg

Order no.	07711
Supply	incl. Stirring Rod WG 120

EHR 15.1 SB Set

The handy Stirrer up to 40 kg

for painters, plasterers and tilers for mixing mortar, tile cement and bigger quantities of liquid media such as paint.

- ❑ Space-saving metal bow with soft grip handle - handy, easy to put down, comfortable transport
- ❑ Electronic switch - stepless speed control for less splashing
- ❑ Aluminium gearbox housing - long lifetime
- ❑ Lock-on button for use in mixing stand with protection against unintentional locking

Specifications	EHR 15.1 SB
----------------	-------------

Power input	1,000 W
Rated voltage	~ 230 V
Max. basket diameter	120 mm
Rated speed	0 - 450 rpm
No-load speed	800 rpm
Spindle connection	M 14 female
Weight	3.1 kg

Order no.	07760
Supply	incl. Stirring Rod WG 120

EHR 15/2 SB Set

The universal Stirrer up to 40 kg

for painters, plasterers and tilers for mixing mortar, tile cement and bigger quantities of liquid media such as paint.

- ❑ Space-saving metal bow with soft grip handle - handy
- ❑ Electronic switch - stepless speed control for less splashing
- ❑ Aluminium gearbox housing - long lifetime
- ❑ EHR 15/2 SB with 2-speed gearbox:
 - 430 rpm for media of high viscosity (plaster, glue, mortar)
 - 760 rpm for media of low viscosity (paint)

Specifications	EHR 15/2 SB
----------------	-------------

Power input	1,000 W
Rated voltage	~ 230 V
Max. basket diameter	120 mm
Rated speed	0 - 430/0 - 760 rpm
No-load speed	700/ 1,400 rpm
Spindle connection	M 14 female
Weight	3.7 kg

Order no.	07757
Supply	incl. Stirring Rod WG 120

EHR 16.1 S

The convenient tool up to 40 kg

The ideal tool for painters, plasterers and tilers. With long mixing spindle and T-shape handle for a comfortable upright working position to mix materials of high and low viscosity.

- ❑ Space-saving metal bow handle - protects power tool when laid down or during transport
- ❑ soft grip - less vibrations
- ❑ High-performance gearbox - especially made for mixing
- ❑ Electronic switch - stepless speed control
- ❑ Lock-on button - with protection against unintentional locking

Specifications	EHR 16.1 S
----------------	------------

Power input	1,050 W
Rated voltage	~ 230 V
Max. basket diameter	120 mm
Rated speed	0 - 450 rpm
No-load speed	800 rpm
Spindle connection	M 14 female
Weight	4.1 kg

Order no.	07776
-----------	-------

Supply	incl. Stirring Rod WG 120
--------	---------------------------

EHR 20 SB Set EHR 20 RB Set

The compact Stirrer up to 50 kg

Due to the compact design, it is of particular interest for painters who require a lightweight stirrer to mix paint, but now and then also a powerful unit for larger quantities of filler.

- ❑ Space-saving metal bow handle - handy, easy to put down, comfortable transport, soft grip handle
- ❑ Aluminium gearbox housing - long lifetime
- ❑ Protection cap with labyrinth guide
- ❑ EHR 20 RB - soft start, thermal control, stepless speed control and constant speed

Specifications	EHR 20 SB/EHR 20 RB
----------------	---------------------

Power input	1,100/1,150 W
Rated voltage	~ 230 V
Max. basket diameter	140 mm
Rated speed	0 - 580/250 - 580 rpm
No-load speed	1,000/250 - 580 rpm
Spindle connection	M 14 female
Weight	4.3 kg

Order no.	07723/07714
-----------	-------------

Supply	incl. Stirring Rod WG 135
--------	---------------------------

EHR 20 S Set

The robust Stirrer up to 50 kg

Due to the H-handle, this tool is particularly interesting as starting model in the building sector, for drywallers and plasterers. Preferred mixing media should be prefab plaster and mortar as well as filler.

- ❑ Robust H-handle
- ❑ Rubber edges - protection against damage
- ❑ Electronics - stepless speed control

Specifications	EHR 20 S
Power input	1,100 W
Rated voltage	~ 230 V
Max. basket diameter	140 mm
Rated speed	0 - 580 rpm
No-load speed	1000 rpm
Spindle connection	M 14 female
Weight	5.3 kg
Order no.	07724
Supply	incl. Stirring Rod MG 140

EHR 20/2.4 S Set

The universal Stirrer up to 50 kg

for building material of medium to high viscosity such as prefab plaster, gypsum, lime, concrete, cement, thermoinsulation material and insulants. A high reliability, long lifetime and robustness make it an indispensable work equipment for professional construction workers.

- ❑ 2-speed gearbox
- ❑ Robust H-handle
- ❑ Electronic switch - stepless speed control for less splashing

Specifications	EHR 20/2.4 S
Power input	1.100 W
Rated voltage	~ 230 V
Max. basket diameter	140 mm
Rated speed	0 - 250/0 - 450 rpm
No-load speed	400/730 rpm
Spindle connection	M 14 female
Weight	5.6 kg
Order no.	07719
Supply	incl. Stirring Rod MG 140

EHR 23/2.3 S Set

The powerful Stirrer up to 80 kg

The new powerful 1800 W motor allows a safe permanent operation, even in case of high load, and mixing materials of high viscosity such as prefabricated mortar and plaster, cement, lime, concrete, quartz-containing epoxy resins, screed, pastes, sealing compounds as well as gypsum and granulates.

- ❑ 2-speed gearbox, H-handle
- ❑ Wide handle distance - comfortable, safe guiding
- ❑ Electronic switch - stepless speed control

Specifications

EHR 23/2.3 S

Power input	1,800 W
Rated voltage	~ 230 V
Max. basket diameter	160 mm
Rated speed	0 - 250/0 - 580 rpm
No-load speed	440/0 - 970 rpm
Spindle connection	M 14 female
Weight	7.2 kg

Order no.	07763
-----------	-------

Supply	incl. Stirring Rod MG 160
--------	---------------------------

EZR 21 S/EZR 21 R

Quick with two Stirring Rods up to 60 kg

The contra rotating stirring rods enable a much quicker mixing of the material. You can even achieve a homogeneous consistency in case of critical material such as screed, epoxy resins, granulates, pastes as well as two and more component materials.

- ❑ No counter torque, easy handling
- ❑ Robust H-handle
- ❑ Change of stirring rods without any tool
- ❑ EZR 21 R - soft start, thermal control, stepless speed control and constant speed

Specifications

EZR 21 S/EZR 21 R

Power input	1,100/1,150 W
Rated voltage	~ 230 V
Total diameter of tool pair	220 mm
Rated speed	0 - 450/140 - 400 rpm
No-load speed	730/140 - 400 rpm
Weight	6.8 kg

Order no.	07744/07746
-----------	-------------

Supply	incl. stirring rods
--------	---------------------

Spare rods (2 pieces)	31610
-----------------------	-------

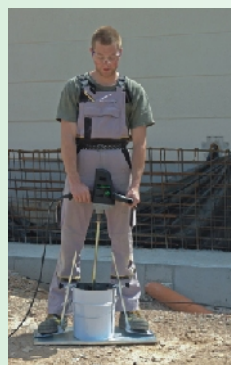

RST 10

Mixing Stand

Thanks to the Mixing Stand RST 10, bigger and smaller buckets can be fixed safely and in a matter of seconds so that a tipping over or slipping can be avoided. The user does not need any tool for that. This is especially suitable for mixing tough and sticky material, e.g. bitumen, two component materials etc.

- ❑ Metal parts galvanised - rust protection
- ❑ Compact design, lightweight - easy transport
- ❑ Quick fixation without any tool - by means of wing nuts
- ❑ Quick adaption to different bucket sizes

Specifications

RST 10

Dimensions	670 x 360 x 36 mm
Max. size of the bucket Ø x height	340 x 450 mm
Batches up to	30 l
Weight	6.4 kg
Order no.	09410
Supply	Mixing stand in a cardboard box without bucket
